

To whom it concerns:

I have been requested to compile a list of the common items used in each of the electronics class. Failure of a student having the items listed below will greatly reduce or totally impede the students' ability to succeed.

Each individual electronics class requires the following items and should be purchased prior to the first day of class:

2	Green Engineering Pads, 400 Count
1	Staples, Box
1	Pencils, Box of 12
1	Pens, Black, Box of 12

The following items are common to all the electronics classes and should be purchased prior to enrollment:

1	TI-85 Graphing Calculator, or that which is required by the Math Department
1	Ruler, Metal
1	Flash Disk, 256 MB or greater (this has replaced the 3.5" floppy)
1	French Curve
1	Stapler
1	Pair of Safety Glasses

Individual classes may require items in addition to this and those will be listed on each syllabus.

If you have any questions in regards to this list or any other topics in regards to the program, please email me at sekafetz@chemeketa.edu or call 503-399-6254
